

# MVT-1 Non-Commercial Use Declaration

## DECLARATION OF NON-COMMERCIAL USE

By divine guidance and in alignment with the mission to empower humanity through freely accessible energy, I, Justin Thomas Avina, the inventor of the Mercury Vortex Transmission (MVT-1) system, declare the following:

### 1. PURPOSE:

The MVT-1 technology has been released as a nonprofit contribution to humanity. Its purpose is to provide clean, sustainable, wireless energy to individuals, families, and nations without financial cost or ownership restrictions.

### 2. PUBLIC DOMAIN INTENT:

All components, schematics, protocols, and supporting documents associated with MVT-1 have been released into the public domain under the Creative Commons CC0 1.0 Universal License.

### 3. NON-COMMERCIAL USE STATEMENT:

No individual, organization, corporation, or government shall:

- Charge any fee for access to the MVT-1 design
- License the MVT-1 system or its derivatives for profit
- Sell, rent, or restrict access to working systems
- Monetize service or support without public transparency and ethical oversight

### 4. ALLOWED USAGE:

The MVT-1 may be:

- Built, distributed, and improved upon freely
- Used in homes, communities, or nonprofit settings
- Maintained or supported by volunteers or donation-based models

### 5. ENFORCEMENT:

While this is not a binding legal restriction under public domain law, this declaration serves as a public moral framework and global covenant that the technology shall not be weaponized, monopolized, or commodified.

## 6. SPIRITUAL MANDATE:

This technology is a divine offering. Those who use or replicate it are expected to honor its sacred purpose: to bring light, healing, and freedom to the world without cost.

Signed and dedicated to all people,

Justin Thomas Avina

Date: April 16th, 2025
